

Applicant : Tal Lavian and Robert James Duncan
Serial No. : 09/632,294
Filed : August 4, 2000
Page : 3 of 3

Attorney's Docket No.: 10360-053001 / BA0367

REMARKS

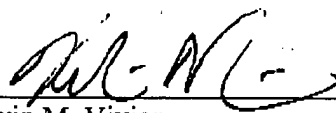

Applicant requests entry of all amendments that were filed and un-entered prior to this submission. The specification has been amended to include the language of "non-object oriented" as suggested by the Examiner. The arguments from the response filed June 21, 2004, are reiterated – i.e., because Applicant's MIB API (application-programming interface) uses SNMP primitives to query the MIB, then the MIB is in a non-object oriented format to respond to the SNMP primitives – as would be recognized by one of skill in the art. Applicant respectfully submits that the amendments to the specification overcomes the Examiner's objections and does not introduce new matter.

Applicant respectfully submits that the claims are in condition for allowance.

Please apply any charges or credits to deposit account 06-1050.

Respectfully submitted,

Date: 08-25-04
